

# LAY OF THE LAND

Your regular update from the team at EuroAgri • **October/November 2015**

## A SPECIAL THANK YOU TO OUR CLIENTS

**EuroAgri would like to thank all their clients who took part in our Think Actual Survey. We really appreciate the feedback that was given by everyone who took time out of their day to answer the questions openly and honestly.**

Our core focus is to better support our clients in business and one of the common theme's which came from Think Actual was a desire for more communication and a deeper understanding of our business. You might notice subtle changes over the coming months such as our bi-monthly newsletter. It's our intention to give advance notice of demonstration days, upcoming tradeshow, servicing tips, parts offers and the latest company developments.

As always we welcome your feedback at anytime.

**At EuroAgri we believe in providing excellence...and constantly enhancing our operations to the benefit of our clients.**

– our promise to you

### UP COMING TRADE SHOWS

**07  
SEPT**

There goes the first two sections folding 6m Heva Combi Tiller MK2 and Disc Roller combination.

**14  
SEPT**

We are proud to introduce Mzuri Strip Till Drills to the New Zealand market. The very first 4m ProTil drill is now available for demonstrations.

**15  
SEPT**

Delivering a new Bredal K65 trailing spreader to Rakaia.

# ON-FARM DEMOS

PRO-TIL is widely recognised as Europe's principal one pass strip tillage system; unrivalled in cultivation, reconsolidation and seed placement accuracy!

**mzuri**  
PRO-TIL®

## MZURI PRO-TIL FEATURES & BENEFITS

- Demonstrator will be fitted with optional front disc to cut through surface residue
- Band placement of fertiliser below the seed reduces fertiliser requirement and ensures early access to nutrients
- Auto reset front tines
- Variable seed metering unit
- Two row sowing coulter (150mm)
- Hydraulically driven fan
- Seed flow monitors
- Hydraulic bout marker
- Adjustable pressure harrow – hydraulically operated
- Semi-pneumatic seed packer
- RDS Artemis drill management
- Independent pressurised seeding arms coupled with adjustable wheel for very accurate seed depth across the field

Euro Agri is proud to present

**mzuri**

Ask us about these other brilliant Mzuri products;

### REHAB®

The low surface disturbance subsoiler

*Increases available oxygen and nutrients to promote quick root development and a healthy plant.*

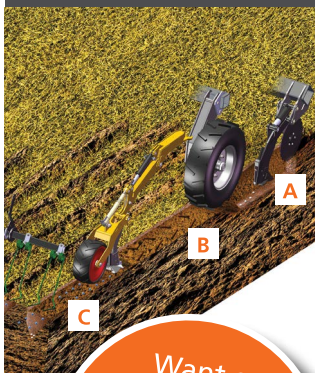

### REZULT®

The major advance in straw rakes

*Control Black-grass, cut slug activity and accelerate straw decomposition.*

Strip-Till drilling provides an optimum environment for strong, even crop establishment

### ZONE A CULTIVATION

Serrated disc cuts through surface straw and allows residue to flow freely to either side of tilled strip.

Auto-reset tine (with replacement point and wing) cultivates seeding zone to ensure a clean strip of moist, friable soil free from surface residue.

Band placement of fertilizer below the seed reduces fertilizer requirement and ensures early nutrient accessibility, providing essential support for quick, strong and healthy plant establishment.

### ZONE B RECONSOLIDATION

A key feature of Mzuri's unique drill design is the fact that all of the machine's weight is evenly spread across all of the cultivated strips.

This is fundamental in reconsolidating the tilled strip to remove air pockets, widely recognised as very necessary to ensure quick, healthy root development.

### ZONE C SEEDING

The coulter tool bar works totally independently to the cultivation zone, ensuring easy adjustment and constant seed depth control.

Each coulter hydraulically exerts pressure to each of the seed depth wheels to ensure accurate seed placement and excellent soil to seed contact, to ensure the quickest and even germination.

## UP COMING TRADE SHOWS

Each year EuroAgri attend various trade shows throughout the South Island. The show season starts off with EuroAgri's local show the Ashburton A&P Show for two days followed by New Zealand's largest A&P Show, the Canterbury A&P Show in November. Let's hope EuroAgri can take out the Best Presented Large Outdoor Trade Site again at the Canterbury A&P Show for 2015.

Feel free to call along to EuroAgri's stand and take a look at the range of machinery we have to offer. EuroAgri's sales team will be on site to answer any questions or to just have a friendly chat.
