Newsletter

Merry Christmas, thank you for your continued support, we look forward to a good harvest, and we look forward to seeing you down at Waimumu and locally at Mayfield and Methven Shows in March 2024.

Have a fun and relaxing time with your family,
EuroAgri Family

Christmas/New Years hours

Over the feast of season, we'll be closed on Statutory public holidays only. As always, our after-hours service is always available; call **03 307 7445** and follow the prompts.

With visitors traveling from around the world, Agritechnica 2023 truly had a global reach. It proved to be a resounding success in bringing the agricultural community together again post-pandemic.

For more information on this premier event, be sure to check the official Agritechnica website [HERE](#)

Agritechnica 2023: A Resounding Success

The 2023 Agritechnica event in Hanover, Germany proved to be a highlight for many in the agricultural industry. Held over eight days in 27 halls spanning 2800 trade sites, the event attracted over 473,000 visitors from 149 different countries.

One of the most anticipated aspects of Agritechnica for James was visiting all of the event's suppliers. *"Seeing the new Lemken Solitair 9m drill was really impressive - it was actually the first drill they had made,"* James remarked. *"...It was also great to catch up with all of our suppliers in person. It had been over four years since COVID began, so this was the first chance to connect face-to-face again."*

The massive scale of Agritechnica was evident everywhere. Exhibitors from 52 different countries showcased their latest innovations and solutions. An estimated 1500 journalists were also on-hand to cover the event.

Support Local Producers at Upcoming Waimumu Event

Mark your calendars for the Waimumu Field Days on 14-16 FEB 2024 and EuroAgri will be in attendance at site **#482**.

As a leading supplier of agricultural equipment, EuroAgri prides itself on bringing the latest innovations to local farmers. Attendees can expect to see a wide selection of machinery on display including new tractors, drills, sprayers and other farm essentials. EuroAgri's knowledgeable representatives will be on hand to discuss options and provide advice on choosing the right equipment.

[Check out more details by clicking here](#)

Be sure to stop by site **#482** to check out EuroAgri's full lineup. You might discover your new workhorse or that special attachment you've been needing.

EuroAgri looks forward to welcoming both new and existing customers. Mark your calendars now for this important date in 2024.

MACHINE HIGHLIGHT

MZURI Pro-Til Select

The Mzuri PRO-TIL Select drill allows farmers to choose from narrow or wider row spacings, making it suitable for crops typically planted in wider rows like maize, oilseed rape, legumes, and sugar beets. Wider rows provide more space for root development and nutrient uptake, as well as improved light penetration and airflow within the canopy. This enhances crop health, bushiness, and yields. The tine legs have high clearance to work with surface residue, improving soil structure by acting as mulch to protect from compaction and retain moisture while supporting earthworm populations vital for soil fertility. The PRO-TIL Select

Mzuri Specialist Shares Insights with Local Farmers

During a successful five-day tour from north Canterbury to north Otago, Will showcased Mzuri's Pro-Till iGen and discussed the benefits of using the machines including the ProTill. Valuable insights were shared on Mzuri's IPass direct drill, highlighting its cutting-edge technology. Hosted by EuroAgri, the visit enabled farmers to explore how Mzuri solutions could enhance their operations. The entire Mzuri range generated significant interest, with outstanding customer feedback attesting to the tangible results achieved. The visit was not only informative but also a pleasure, solidifying our commitment to advancing agricultural practices.
