# EuroAgri Newsletter

We're thrilled to introduce you to the newest member of our EuroAgri family, John! With over 23 years of invaluable experience in the agriculture industry, John brings a wealth of knowledge and expertise to our team.

Originally hailing from Ireland, John's journey in agriculture has taken him across the globe, from large-scale farming and contracting in Ireland and the UK to Jeju Farms in South Korea and custom harvesting in the USA. In 2009, John made the leap to New Zealand, immersing himself in Southland's contracting scene, eventually venturing into management roles before starting his own successful contracting business.

But John's journey doesn't stop there. Recognizing his passion for machinery and a desire to assist fellow farmers in achieving their goals, John transitioned into sales. His love for agriculture and his knack for understanding machines inside out make him an invaluable asset to EuroAgri and, more importantly, to you, our valued clients. Whether it's finding the perfect machine to streamline your operations or providing expert advice on maximizing efficiency, John is dedicated to helping you succeed.

On a personal note, John is a devoted family man. He shares his life with his wonderful wife, Kayla, and their two adorable children, Abel (7) and Nova (3). When he's not immersed in all things agriculture, you'll likely find John enjoying quality family time, hitting the trails for a run or hike, or indulging in his passion for watching machinery reviews.

We're confident that John's dedication, experience, and passion will make a positive impact on your farming journey.

**If you have any questions, need assistance, or simply want to say hello, don't hesitate to reach out to John directly:**

Allow us to reintroduce you to a familiar face – Seاون Lovell! We're absolutely thrilled to welcome Seاون back to the EuroAgri family, where his passion for agriculture and dedication to customer satisfaction shine brighter than ever.

With a diverse background and a passion for connecting with people, Seاون brings a unique blend of experience and enthusiasm to our business.

Seاون's journey in agriculture has been nothing short of remarkable. From spending time on his wife Sarah's family dairy farm to delving into the world of precision agriculture and variable rate technology, Seاون has honed his skills and knowledge across various facets of the industry. Following his previous stint with EuroAgri, Seاون ventured into contracting where he served as an integral part of an agriculture spraying contractor before assuming the role of cultivation and drilling manager for a prominent locally owned contractor.

What sets Seاون apart is his genuine love for interacting with others. He thrives on forging new

On the personal front, Seاون cherishes spending time with his family and friends. He shares his life with his beloved wife, Sarah, and their lovely daughter, Tilly. When he's not busy tending to the garden or enjoying quality time with loved ones, you'll often find Seاون hitting the trails on his mountain bike or savoring a pint of Guinness—because what's life without a little adventure and good company?

We're confident that Seاون's expertise, passion, and friendly demeanor will enrich your experience with EuroAgri.

**If you have any questions, need assistance, or simply want to say hello, don't hesitate to reach**

connections, listening to your stories, and building meaningful relationships. Whether it's understanding your unique farming needs or simply catching up for a chat, Seau's friendly demeanor and genuine interest make him a pleasure to work with.

We're delighted to welcome **Nathan McCloy** back to our team after his enriching 8-month overseas experience! During his time abroad, Nathan gained valuable insights and skills that will undoubtedly contribute to our continued success

## SPREAD TESTING

Prepare for the upcoming season by scheduling your fertiliser spreaders for winter servicing and spread testing. Now is the perfect time to take proactive measures and detect any wearing parts or calibration issues. Early identification can help you avoid compounding problems and costly repairs down the line. Trust EuroAgri to ensure your equipment is in top-notch condition, setting the groundwork for a successful season in the fields. Book your servicing today by calling Nathan McCloy and fortify your fertiliser spreaders for optimal performance!

As always, our after-hours service is always available; call **03 307 7445** and follow the prompts.

[Book your spreader in now](#)

Proud to Welcome  
Hanza & Southern Spreaders  
to our family of brands.

The **Hansa T155C** is the spreader with the lot. 15,000 litre capacity, 20 tonnes of lime or 11 tonnes of Urea, spread widths of Manure 12m, Lime 18m, Urea 36m Don't buy half a spreader - Hansa can do it all - Lime, Gypsum, Compost, Manure as well as MAP, DAP, SSP, Urea, Bait and Seed. Section control and variable rate gives you total control and efficiency over your spreading and stainless steel build ensures durability for years to come. Plus, give your fertiliser a first class ride with hydraulic drawbar suspension and bogey tandem axle suspension

Talk to our product specialists **James McCloy** on 027 782 7606, **John Brady**, Southland on 027 251 9801, or **Seau Lovell** on 027 611 1892, now.

## EuroAgri attends Lemken product training in Warragul, Australia

In early May, our team had the fantastic opportunity to spend three days in Warragul, Australia, diving deep into the world of Lemken cultivation and seeding equipment. Our hands-on experience included working with the Solitaire DT drill, the Karat cultivator, the Rubin 10 discs, and the Helidor discs.

Our team of five was joined by 30 other enthusiastic participants, all eager to learn. We were incredibly fortunate to have Lucas Bonus, a top-notch trainer from Germany, guiding us through the sessions. His expertise and engaging teaching style made this one of the best training courses we've ever attended.

The knowledge we gained is invaluable, and we're excited to apply what we've learned to improve our practices
